

*Business Advocacy Network held a workshop on the topic “Methodology and Process of Forming a National Business Agenda”*

On December 15, 2015 a workshop on problems of forming and developing National Business Agenda in Armenia organized by Business Advocacy Network took place. The formation process of National Business Agenda is a process of finding the most important and urgent issues preventing business environment development, discussing, and implementing the possible solutions to those issues. An expert from US Center for International Private Enterprise – Camelia Bulat presented the importance of NBA and the experience of different countries in developing it, i.e. Moldova, Montenegro, Belarus, etc. Ms. Bulat touched upon the methodology and the main stages of implementing NBA.

The workshop was held in an atmosphere of heated discussions and questionings, and the participants expressed their opinions on applying tools like the Business Advocacy Network in various countries of the world.

The raised commentaries and suggestions will be taken into consideration when implementing NBA in Armenia. Representatives of the network member organizations thanked Ms. Bulat for properly addressing the questions of participants.
